What did you especially appreciate/not appreciate about your GSI? What could the GSI have done to make your learning experience better? What worked well? What didn't work? What could be improved?

Comments
Super engaging and made discussion fun. I learned a lot during discussion sections and felt like I contributed without the anxiety I normally feel when someone calls on me.
He was very open to discussion on matters related to the topic. I appreciated that he took his time to answer our questions and asked for our feedback to see if his answer was sufficient. The detailed handouts with answer keys were extremely helpful. Sections could get a bit slow at times but it's understandable.
I would have appreciated more assistance in locating group member peers, since these students would probably respond more to emails from members of the teaching team. I tried to find two members for 2 weeks in the beginning of summer session and received no assistance from the team. would be better to hold all group members accountable for the work output.

Comments
This is more to do with the course than the GSI, but I think having the office hours be clear would have been better.
I really liked how he was able to make sure that we could understand the practice problems that were given to us.
Best GSI I've had while at Berkeley. Edwin is so helpful, and always gets back to your questions in a timely manner through email if not explained in section. He makes the worksheets engaging and fun, and the problems always help to understand the material better. Edwin is understanding, and gives opportunities to everyone to answer questions. The ideal GSI.
I appreciated the hands on activities in the discussion sections.
